

Elevator Modernization Plan

In 2017, the Facilities department hired a consultant to evaluate all elevators on campus and identify deferred maintenance needs. An elevator modernization plan has been developed based on that assessment. Upgrades for the first 8 elevators have been designed and contracted to Stanley Elevator, and parts are on order. Construction work will begin in March and be ongoing throughout 2019.

2019 Elevators:

- Beebe
- Claflin
- Tower Court (east and west)
- Stone Davis (2 elevators)
- Green Hall (south elevator)
